Presenters:

Roger Taylor - Mr. Taylor is a Principal Project Manager at the U.S. Department of Energy's National Renewable Energy Laboratory in Golden, Colorado. With 30 years of experience in renewable energy technology development and application, his quest has been to expand and promote the use of renewable energy to support sustainable communities. He works do so both domestically and internationally, in collaboration with the U.S. Department of Energy and other U.S. government agencies, the renewable energy industry, financing and development agencies.

Dr. Richard S. Knaub- Dr. Knaub is a Project Leader in Weatherization & Workforce Development, at the National Renewable Energy Laboratory. He has been actively participating in the Weatherization training and standards development both at the state and national level for the last several years. In addition to teaching about energy efficiency and renewable energy at the community college level, he's been involved with community development, educational and sustainability activities in New York, Kentucky, Tennessee, and Colorado.
